ABOUT ME

I am a **Frontend Developer** with a strong grip on **HTML, CSS** and basic **JavaScript**. I create responsive and user-friendly websites to deliver smooth digital experience. I am also learning backend technologies to broaden my skills and transition into full-stack development.

MY PROJECTS

Product: Clothing Brand

MADAM BOUTIQUE.

TECH STACK: HTML, CSS, BOOTSTRAP, JAVASCRIPT

- Developed a responsive clothing brand website with seamless device compatibility.
- Structured multiple sections including Men's and Women's categories, enhancing navigation and user engagement.
- Focused on user-friendly interface, allowing easy product discovery with a straightforward structure.
